

**JOB:** .NET WPF PowerPoint Developer (Ref. No. 0178)

**LOCATION:** Anywhere

**AVAILABILITY:** Full-time / Part-time

### **WHO WE ARE:**

Lean Street Company is a high-touch tech consulting agency founded on the idea of eliminating waste in product development and creating a process that supports rapid innovation.

We are hard-working, extremely passionate about technology, provide complete transparency and understand how to best collaborate with other teams and businesses.

Our talent is gathered from around the world. To be part of the Lean Street team you have to be more than a top-notch developer - You have to be passionate, assertive in communication, able and eager to walk a mile in the client's and user's shoes, and advocate on their behalf. We encourage lifestyle employment where we offer flexible work schedule as long as you get the job done.

### **REQUIREMENTS:**

We are looking for a developer capable of working on a PowerPoint plugin written using Visual Studio Tools for Office, in C# using WPF XAML for the view layer.

Project continuous integration is handled through Azure DevOps. Coding standards are enforced via StyleCop. Project is managed using GitHub tools.

- + Bachelor's degree and a minimum of 5 years of development experience
- + Strong communication skills and ability to work with higher levels of management
- + Experience in working with .NET WPF and Visual Studio Tools for Office.
- + Experience using Git
- + Experience with Scrum/Agile methodology
- + Willingness and ability to manage deployments

### **BONUS SKILLS:**

- + Experience with UX design
- + Familiarity with Azure

**CONTACT:** [jobs@leanst.com](mailto:jobs@leanst.com) - Please quote job No. 0178 when applying.

We look forward to hearing from you!
